- Expand knowledge of brownfield redevelopment
- Understand brownfield redevelopment's impact on NJ
- Learn about tools for successful brownfield redevelopment.

Description of DEP Program Area/Work Unit Offering the Internship:

DEP's Brownfield Office is the only place in the Department responsible for implementing the Brownfield Development Area (BDA) Program. A brownfield is defined as any former or current commercial or industrial site that is currently vacant or underutilized and on which there has been, or there is suspected to have been, a discharge of a contaminant. Generally, brownfields are properties that are abandoned or underutilized because of either *real or perceived* contamination. Under the Brownfields Development Area (BDA) approach, NJDEP works with selected communities affected by multiple brownfields to design and implement remediation and reuse plans for these properties simultaneously. The BDA approach enables remediation and reuse to occur in a coordinated fashion.

Internship Hiring Contact: Rebecca Jones - rebecca.jones@dep.state.nj.us

Internship Sponsor: Colleen Kokas

* Co-op and Credit-Bearing Internships require approval of the internship by the student's Academic Department. The DEP Internship Sponsor has agreed to work with the student's Academic Department to provide a credit-worthy learning environment that benefits DEP goals. The student is responsible for all costs associated with receiving the credits from their educational institution.
